Report Title:	A STUDY TO INVESTIGATE THE EFFECT OF REGRO HERBAL HAIR OIL ON HUMAN VOLUNTEERS
Period of study:	October 2018 –January 2019
Project Leader:	Dr. Supriya R. Hyam M.Pharm, PhD
Project investigator:	Dr. Sujal Torgal BAMS, Reg No. 400/2009

SUMMARY REPORT

A 3 months treatment was carried out for 10 human volunteers with the problem of hair fall. At Visit 1 the treatment history of each volunteer was orally enquired and their number of hair fall with roots was recorded. Volunteers were massaged with Regro Herbal oil daily once at night before sleep. The subsequent visits were scheduled after two weeks' intervals for 90 days. Volunteers were asked to report any adverse events occur during the treatment period. In total seven times examination of Volunteers were carried out throughout the treatment period. Each time the combing assay was performed.

The percentage of hair fall has significantly reduced in 90 days of treatment. The Volunteers gave very good feedback as they saw notable changes in three months. The examined product "Regro Herbal Hair Oil" as a hair nutriment product showed pleasing effect in 10 Volunteers.
